
Healthcare

General practitioner

It is up to you to select a general practitioner. However, do not forget to check if the selected physician has signed a contract with your health insurance company. If needed, your general practitioner will send you to specialists or to a hospital for treatment.

Dentists

The scope of care covered by general health insurance is limited. It is likely that you will need to pay extra for some procedures. Your dentist is required to acquaint you with the price of all types of treatment that are not covered by insurance and that you will need to pay out of your own pocket.

Psychological help

We offer counselling in English, free of charge for all CU employees. Should you need our help to deal with your work, family, personal or other problems, you are welcome to come to our Counselling Centre. Find more information [here](#).

Important telephone numbers

In the event of a life-threatening emergency, call the **emergency ambulance service – 112**.

There are several clinics in Prague that specialize in English-speaking patients and provide a comprehensive network of services from basic treatment to arranging the accompaniment of patients during their visit to the hospital. These are private facilities and thus charge relatively high fees for their services.
